**AMENDMENT AND RESPONSE TO FINAL OFFICE ACTION**

This is in response to the final Office Action dated January 17, 2002 (Paper No. 6).  
Applicant are also filing concurrently herewith a request for continued examination. Please amend  
the above-identified application as follows.

**In the Claims:**

27. (Twice Amended) A coated implant comprising an implant and a coating, wherein  
said coating comprises a deposit of crystals nucleated directly onto the implant from solution with  
the coating having an average bond strength to the implant of between 40 to 65 Mpa, wherein said  
coating comprises magnesium ions, calcium ions, and phosphate ions, and wherein said coating  
induces formation of bone cells from progenitor cells.
